

OBJECTIVE

I am a student in my last year of study. I am looking for a part-time job in the field of game development on Unity so that I can combine it with my studies.

ABOUT ME

- I've been working for Unity for two years. Since April 2021, he began studying Unity and C#, simultaneously creating minor projects. I have been developing games for mobile platforms for the last 8 months.

I have a confident knowledge of C#. I know and know how to put into practice the principles of OOP, SOLID and design patterns. I can write clean code. I know the principles of rendering.

I have experience working with DOTween, Zenject plugins, as well as experience implementing third-party SDKs such as UnityAds. I know how to configure Firebase Analytics. I own Git. I have experience in creating multiplayer games.
